

I was standing on my front porch as I watched her drive away

I looked over and asked her daddy, “How are you feeling today?”

He said, “We knew this day would come. What do you want me to say?”

Nothing lasts forever

I decided to go our back and take a walk around

There was a beautiful sunset; a ball blazin’ on the ground

I ran inside but when we came out there was no ball to be found

Nothing lasts forever

Chorus

When you see that something special

A big smile on your little girl’s face

Or every color of a rainbow

As daylight fades away

The only guarantee in life

Is everything will change

Nothing Lasts Forever

The fall air felt crisp and cool, and the leaves began to change

I remembered raking up big piles and how she used to run and play

With the best dog that I ever had, I’ll never forget his name

Nothing lasts forever

Repeat chorus

I was standing on my front porch as I watched her drive away ~
